

## GOV. B. B. COMER SPOKE HERE TODAY

### CHIEF EXECUTIVE URGES PEOPLE TO STAND BY PARTY NOMINEES

Gov. B. B. Comer spoke in Dothan today at the Houston county court house in interest of the state Democratic party and its nominee, Hon. Emmet O'Neal. Hon. William Laekey, who was also scheduled to speak here, was not present, and the entire time was taken up by the address of the governor. The speaker was introduced by Hon. G. H. Malone.

Governor Comer made many interesting remarks in regard to why the citizens of Alabama should vote for Emmet O'Neal for governor, and should stand by the Democratic party in their actions.

He referred to the voters of the states of Tennessee and Virginia, who had bolted from the party, and to their conditions after this step was taken. He took special pains to impress upon the minds of the citizens that all grievances held against the nominee should be settled now, and that although he may not agree with them in day.

many things, that he is the state's man, and that it was their duty to stand by him and with him.

Many interesting and educational references were made to the state affairs, the work done by the administration, and the hard fights made by the present officials.

Never fail to call for your library tickets when making cash purchases. If you don't specially care for the coupons now they will be worth something to you later on.

T. H. Crawford who is studying law at University this year is here on a visit of a few days to friends.

W. G. Carlton, of Dadeville, was among the visitors to Dothan yesterday and last night.

W. T. Gissendanner, of Pinckard, was here today on business, and called in to pay for his paper.

You who want the Eagle right out—subscribe now, while you can get it for \$2 for next year, and 2,000 votes in the Library contest.

Henry and Zim Walford, are visiting relatives in Dothan today.

## CARROLL AGAIN IN HOUSTON COUNTY JAIL

Sheriff T. W. Butler returned last night from Ryne, Ga., where he has been to get Lewis Carroll who was being held there by the officials.

It is reported that it was by the efforts of the Ryne chief that Carroll was caught but the case was worked up by sheriff Butler who ordered his arrest there. Carroll has been there for quite awhile with relatives and was employed there at the time of his capture.

He was captured only a few hours prior to Sheriff Butler's arrival and therefore the reward of \$50 was demanded and paid.

### But We Like It

The next time the town goes to have its streets paved it will probably know about when to look for the job to be finished. When this job was started, or rather when the brick were piled up on the sidewalks, everybody thought that it would be done and out of the way by cotton season. The cotton season has come and is about ready to leave, and still we have the pavers. That paving crew will get its Santa Claus right here in Dothan unless they jump an unfinished job and go home.

Now as to the sidewalk paving, we didn't know when to look for its completion. About the time the job got started good, an ordinance was passed providing for more paving. It is liable to go on all next year, but the people are so glad when the paving of the sidewalks begin till they don't think they can afford to walk around them for a while for the improvements.

Strange things, too, about the sidewalk paving. The people who started off to kick have about gotten over it for they see that it really did help the looks of their property so, till they are rather pleased, while it is hard to admit.

We are so far ahead of other towns of this size in the way of public improvements, till we ought not to complain. The council has spent a barrel of money, but it bought something that the town and its people ought to be proud of, 'sensing a few moss backs.

### Interesting Feature

The happenings of twenty-five years ago, as published in The Montgomery Advertiser, are being reproduced now by that paper. In yesterday's paper, they gave a local item about Mr. Frank P. Glass being in Eufaula, soliciting subscriptions to the Advertiser and doing right well. You see what any bright young man can do who has a willingness to work. Mr. Glass might have started out soliciting subscriptions for the paper, but now he is one of the owners, and also one of the owners of the Birmingham News, and to look at him now, one can hardly imagine that he ever went direct to the people and asked them to subscribe to the Advertiser. He can now afford to send a man on such a mission.

This new feature of the Advertiser ought to prove one of much interest to the natives of Alabama; they can look back over the dusty files without getting the dust and dirt of twenty-five years on their hands.

### They Don't Stand for It.

Up in Birmingham, some man was bold enough to charge that liquor was being openly sold, and

that the officers were not doing their duty. For his trouble, a party of citizens called upon him at various appointed times during the afternoon and beat him up to where he had to be introduced to his wife and children when he got home. No illustration was given with the news item, showing an extended arm, with "Never again" written under it, but it would be appropriate. You take the citizenry of Birmingham, and like some other towns, when they want their liquor, and they don't propose to have people rising up and criticizing and pointing the finger of scorn. If we were the Montgomery Journal, or Mr. Judson's Weekly, we shouldn't forget this in the next round with the Birmingham papers, and hold such conduct up to the public. It will come all around helping to get that census business off their minds.

This is a great day of congresses of some kind. Your hear of the mothers' congress, the boll weevil congress, the hook worm congress, the down and outers' congress, the good roads congress, the horse swappers' congress, and we intend to take it up with apt Mart White and have his Sacred Harp singing conventions changed to a Sacred Harp Congress. The old terms are meaningless. You must have a congress of some kind. Next thing, we will have a five o'clock tea congress, a domino congress, a whist congress, a nations congress.

If the wholesale liquor dealers of Jacksonville and Pensacola would send a man over to Dothan and look the situation over, they could save a good deal of unnecessary expense. The first place to stop would be the postoffice, where the waste box might be inspected. In this box probably 85 per cent, of the whiskey circulars are dumped, unopened, be they sent in small or large envelopes.

The express office may do a good business here during Christmas times delivering whiskey, but we don't think they will deliver as much to individuals as they did last season. There is too much competition.

The Clanton Banner is floundering right on the edge of Republicanism, and the Birmingham News ventures to say that the Banner has gone Republican, because another live Democratic paper has been started in Chilton county. Frank Chrston circulates a paper in a county that has long had a tendency to be Republican, and the switcheing of his politics at this stage he considers good business. May be it is but we think he has made a mistake.

Some man filed a petition in bankruptcy who owed \$350,000, and the Atlanta Georgian wants to know his trick of keeping off his creditors so long. You can't keep that kind of a man down; he has enough resources to borrow a foundation for another fortune.

On the race track at Dallas, Tex., the other day, a motorcycle racer let his machine get away from him while at 70 miles an hour, and the rider was killed. Those who witnessed the motorcycle races at Montgomery can easily imagine what would happen if the rider should get thrown

off. It is a very dangerous sport.

The Torala Democrat, the Headland Standard, the Andalusia Star appears to be three of the papers were looked over today that are gotten out by printer editors, or editors who in time have worked at the case. You can tell such papers from their neat typographical appearance, which really adds more to the value of the paper than what's in it, as a general rule.

We haven't put our stamp of approval on these pink sections the big papers are getting out yet. Along in the base ball season, we presume those papers got overstocked on pink paper, and are working it off now in the regular issues.

Something has gone wrong with the platform and theatrical business. It has been almost ten days since Ethel Leneve was acquitted and Walter Wellman fell in the Atlantic, and neither has been signed for the season.

Jim Woodward now makes the timely remark that he didn't expect to be elected mayor of Atlanta, anyway. Wanted to show the people that he hadn't forgotten how to run.

This king business is playing out, year by year, and some of us may live to see the time when there will be no kings, excepting the cotton kings, of course.

If you can't get what you want, do the next best thing. take a substitute, but not until after you have made a thorough search.

If they keep fooling with the new mayor of Birmingham, the business of selling booze will be discouraged.

This cold snap of weather has brought out several second-hand overcoats, smelling of moth balls.

Speaking of Walter Wellman, who has heard of anything he said since he got back?

Judge Parker and the Colonel ought to meet stump to stump and have it out.

Mud, a thing to be stepped in, or thrown at your political enemies.

### PROFESSOR TOMPKINS HAS A BIRTHDAY

Strange to say, the fact that Prof. O. L. Tompkins, of the Dothan High School, had a birthday, leaked out among the pupils yesterday, and as a result, the learned teacher is the recipient of a beautiful watch fob, a gift from his pupils. In addition to this, he was presented with a large basket, containing a number of fruits suitable for an agricultural display.

Heretofore Professor Tompkins has managed to smother the interesting fact when his birthday came, but this time some gumshoe scholar of the Dothan High School broke the news to the convention and a great celebration took place in the walls of the handsome edifice known as the high school building. No fireworks display.

The professor states that he expects to have another in the course of about a year.

## A SUBSTANTIAL INSTITUTION

Always prospers. The opening of the Campbell Institute of Shorthand and Accounting in Dothan, Ala., on Oct. 3rd 1916 is the beginning of what promises to be one of the most substantial business colleges in Alabama.

The young people do not have to go to the large cities and spend a small fortune getting a first class commercial training.

A good school of Bookkeeping, Shorthand, Typewriting and Commercial English, in a good little city, under the direct supervision of an experienced business college man, invites the youth of the South to accept this superior training at a very reasonable figure.

## Importance Of Life Insurance

Do you realize the importance of Life Insurance? If not, you should begin thinking about it at once, for life is uncertain, and death sure; the being the case, WHY DELAY?

To carry a policy in the Home Company that has just been organized in Dothan, will cost you over TWO CENTS A DAY, and surely you would not mind paying that small amount to know that when you died, your family would be well provided for.

Often you hear a man say "if I knew I was going to die soon, I would take out a policy," but that is a poor argument, as many a person has died not leaving his family One Dollar, because he thought he would live a long time.

This is where the uncertainty of life comes in, and where the wise man takes time by the forelock and provides for the future for those that are looking to him for protection.
